# Bhuvan Teja Ponakala

**Artificial Intelligence & Data Science Undergraduate**

Bengaluru, India | +91 6304660132 | bhuvanteja.ad24@bmsce.ac.in
bhuvanteja212212@gmail.com | GitHub | LinkedIn
LeetCode | HackerRank | Kaggle | Unstop

## SUMMARY

Artificial Intelligence & Data Science undergraduate at B.M.S. College of Engineering, Bengaluru, with a strong interest in both **Data and Artificial Intelligence**. Interested in Data Analytics, Data Science, Machine Learning, Data Visualization, Deep Learning, Computer Vision, Generative AI and AI Agents. Experienced in building practical projects involving data processing, machine learning, forecasting, computer vision, web development and AI-oriented applications. Continuously strengthening foundations in Python, SQL, C, C++, Data Structures, DBMS and software development.

## EDUCATION

**B.M.S. College of Engineering (BMSCE)** 2024 – 2028
*Bachelor of Engineering in Artificial Intelligence & Data Science* Bengaluru, India
CGPA: **7.28**

**Sri Chaitanya Junior College** 2022 – 2024
*Intermediate – MPC* Mayuri Bhavan
Score: **85.4%**

**Sri Chaitanya School** 2021 – 2022
*Class X*
Score: **88.17%**

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming** | Python, C, C++, Java, JavaScript, TypeScript |
| **Data & Analytics** | Data Analytics, Data Science, Exploratory Data Analysis, Data Visualization, SQL, Pandas, NumPy, Microsoft Excel, Tableau, Statistics, Predictive Analytics, Forecasting, Anomaly Detection |
| **AI & Machine Learning** | Machine Learning, Deep Learning, Computer Vision, Generative AI, LLM Applications, AI Agents, Multi-Agent Systems |
| **Development** | HTML, CSS, JavaScript, React, React Native, Web Development, REST-oriented application concepts |
| **Computer Science** | Data Structures, Algorithms, DBMS, Object-Oriented Programming, Operating Systems, Computer Networks, Problem Solving |
| **Tools** | Git, GitHub, Google Cloud Platform, MATLAB, Excel, Tableau |

## EXPERIENCE

**FlyRank AI — Machine Learning Internship** 2026
*Machine Learning Intern* Remote

- Worked through an applied Machine Learning track focused on search intelligence, data analysis and model-based recommendations.
- Explored a workflow covering research questions, data contracts, signal auditing, baseline modeling, validation and ranked recommendations.
- Worked with Python-based ML workflows, structured datasets, notebooks and reproducible analysis pipelines.
- Internship repository: github.com/bhuvanteja-0722/flyrank-ml-internship

**Oasis Infobyte (OIBSIP)** 2026
*Data Science Intern* Remote / Virtual Internship

- Worked on project-oriented Data Science and Machine Learning tasks using Python.
- Performed data preprocessing, exploratory data analysis, data visualization and machine learning workflows.
- Applied data-science concepts to practical datasets and problem statements.
- Internship repository: github.com/bhuvanteja-0722/OIBSIP-Data-Science-Internship

## SELECTED PROJECTS

**RecoverAI — Revenue Recovery / AI Application** GitHub
AI-oriented application focused on revenue recovery workflows, intelligent analysis and practical business-oriented decision support.

**Razorpay Track 3 — RecoverAI** GitHub
Hackathon project developed around the RecoverAI concept, combining application development, AI-oriented workflows and revenue recovery use cases.

**SevaTrack** GitHub
Data- and AI-oriented project designed around practical service tracking and intelligent application workflows.

**Crop AI — Plant Disease Detection** GitHub
Computer-vision-oriented agricultural application exploring plant disease detection and AI-assisted agricultural support.

**Outbreak Agent Demo** GitHub
Disease-outbreak early-warning concept combining data processing, anomaly detection, forecasting, classification and AI-agent concepts.

**FlyRank ML Internship** GitHub
Machine-learning internship work involving data analysis, model experimentation, validation and search-intelligence workflows.

**OIBSIP Data Science Internship** GitHub
Data Science internship repository containing project-based work using Python, data preprocessing, analysis, visualization and machine learning.

**Data Structures in C** GitHub
Programming fundamentals repository covering linked lists, stacks, queues, pointers, dynamic memory allocation, postfix expressions and Tower of Hanoi.

## ADDITIONAL PROJECT EXPERIENCE

- **CropGuard AI:** Deep-learning and computer-vision agricultural system exploring crop disease detection, disease severity analysis, agricultural recommendations, weather support, dashboard analytics and multilingual assistance.
- **Disease Outbreak Early Warning System:** Explores the pipeline *Data Collection* → *Processing* → *Classification* → *Anomaly Detection* → *Forecasting* → *Risk Analysis* → *Alerts*. Technologies explored include Python, Pandas, NumPy, Scikit-learn, LightGBM and Prophet.
- **Smart Scheduler:** Web-based productivity and scheduling application using HTML, CSS and JavaScript for task organization and activity planning.
- **Bahubali Interactive Web Experience:** Creative frontend project combining HTML, CSS, JavaScript, SVG, audio, video and interactive visual elements.
- **E-Commerce Website:** Frontend application exploring product presentation, interactive UI, browser-side data handling and LocalStorage using HTML, CSS and JavaScript.
- **Attendance Management System:** Java-based application exploring object-oriented programming, data handling and application logic.

## ANTHROPIC CERTIFICATIONS

**Claude Platform 101**
**Claude 101**
**Claude Code 101**
**Claude with the Anthropic API**
**AI Fluency for Small Businesses**
**AI Fluency: Framework & Foundations**
**Introduction to Claude Cowork**
**Claude Code in Action**
**AI Fluency: AI Capabilities & Limitations**
**AI Fluency for Students**

*Issuer: Anthropic, with AI Fluency for Small Businesses issued in collaboration with PayPal.*

## OTHER CERTIFICATIONS & LEARNING

- **5-Day AI Agents Intensive Course with Google** — Kaggle × Google
- **Introduction to Generative AI Studio** — Google Cloud / Simplilearn
- **GenAI Landscape** — Analytics Vidhya
- **Artificial Intelligence Mastery** — EventBeep
- **AI Tools & ChatGPT Workshop** — Be10x
- **Data Analytics Essentials** — Cisco Networking Academy / Credly
- **Deloitte Australia – Data Analytics Job Simulation** — Forage
- **Tata – GenAI Powered Data Analytics Job Simulation** — Forage
- **C for Beginners** — Great Learning
- **Python Basic Assessment** — LearnTube.ai
- **Python Beginner Level Guru** — TechGig / CoolBoots
- **Getting Started with Microsoft Excel** — Coursera
- **Introduction to Project Management with ClickUp** — Coursera
- **Develop a Company Website with Wix** — Coursera
- **Full Stack Development 2026** — GUVI / HCL

## HACKATHONS, ACHIEVEMENTS & LEADERSHIP

- **Codefest – Nationwide Coding Hackathon 2026:** Participated in a competitive coding and rapid problem-solving environment.
- **HackTheRank:** Participated through Unstop in a competitive technical problem-solving environment.
- **Junior Coordinator – Merchandise, Utsav & PhaseShift:** Supported merchandise planning, coordination, event execution, communication and collaboration with student teams.
- **LeetCode:** Solved 50+ coding problems and earned the Top SQL 50 badge.
